

DIRECTIVE LEADERSHIP – REFLECTION TEMPLATE

Did I consciously use Directive Leadership?

What was the situation that led me to use Directive Leadership?

Was this the best leadership style for that situation?

How did my follower react to this Directive style? (Consider their body language, facial expressions, words used and motivation levels before, during and after)

What went well when I used Directive Leadership?

What could have gone better?

How did using Directive Leadership make my followers and myself feel?

Did I use the Dichotomy of Directive leadership?

What will I do next time?
